LIVESCARE
ULTIMATE DESTINATION FOR ALL HEALTHCARE NEEDS

LIVESCARE®

ISO 9001:2015, ISO 13485:2016 and CE

DISPOSABLE MEDICAL DEVICES

ISO ISO9001:2015, ISO 13485:2016 and CE

ABOUT US

Medilivescare Manufacturing Private Limited is a prominent company serving medical professionals, hospitals and laboratories around the world with high-quality cost-effective products. The company draws its strength from skilled and trained staff to achieve the goal of customer satisfaction in every business deal. In our perspective immediate response, providing offers on time & honouring committed delivery time are essential elements along with ensuring quality of products and Medilivescare Manufacturing is always obligated to it & made them part of operating procedure.

Our Business

Medilivescare manufactures and exports Disposable Medical Devices, Hospital Uniforms and Safety Wears & Medical Bandages and Surgical Dressings to various African, Middle East, European and Asian Countries directly and through distributors / agents. The company operates on internationally certified manufacturing, Quality Control and R&D facilities. Medilivescare's team is qualified professionals who work in synchronization with the changing demand and schedules of the customers and strive for excellence. Day or night – we deliver on our promise around the clock. We are always thankful to our customers, who have supported us to become a trusted and prominent name in the healthcare industry.

Our Team

Our team is well trained to make the transactions smooth and the policies are flexible & customer friendly. We believe in making relations. We always respect the feedbacks / suggestions from our customers and this is one of the major factors that has helped the company to achieve the expected growth in the industry. We focus on quality with no compromise while making all efforts to supply the products at economical rates and that is the major highlight why Medilivescare Manufacturing has become a name that is indispensable for the customers looking for a reliable manufacturer and supplier of Disposable Medical Devices, Hospital Uniforms and Safety Wears & Medical Bandages and Surgical Dressings. The company strictly follow the norms of ISO 9001:2015 quality management system. Medilivescare Manufacturing has also achieved ISO 13485:2016 and CE certifications.

Product Code : MD-0141-0006

Product Name : IV Cannula with Injection Valve and with Wings

Specifications

Flashback chambers make it possible to see venous return quickly.

Specially designed wings for easy gripping and safe clamping.

One-way silicone injection valve on injection port.

Covered by a special protection cap with a recessed p

Cover for needles and catheters to prevent accidental

Color-coded body/port caps in accordance with ISO standards.

Luer taper of 6%, in accordance with international standards.

The needle is made of Japanese stainless steel (AISI 304) with diameter and length adhering to all ISO standards.

Painless insertion with triple-point needles.

A thin-walled, radio-opaque stripped / transparent Teflon catheter in accordance with USP standard class VI.

Automated tipping technology for lower penetration forces.

The ideal trim distance for pain-free penetration. Individually sealed blister packs that can be disposed of after use. Sterile.

Technical information:

Gauge	Ext. Dia. (mm.)	Length (mm.)	Flow Rate (ml./min.)	Colour Code
14	2.1	45	300	Orange
16	1.8	45	200	Grey
17	1.5	45	140	White
18	1.3	45	90	Green
20	1.1	33	61	Pink
22	0.9	25	36	Blue
24	0.7	19	15	Yellow
26	0.6	19	13	Purple

Product Code : MD-0142-0006

Product Name : IV Cannula without Injection valve and with wings for Neonates

Specifications

With Small wings and without injection port for easy handling in neonates.
Mini Size flexible angled & grooved wings for effective & secure fixation.
Large internal diameter for increased flow rate and reduced peel back effect.
Siliconized needle tip for atraumatic tissue penetration.
Transparent flashback chamber for easy visualization of blood.
Available in size 24G & 26G.
Single use, Non Pyrogenic, Sterile.
Sealed blister packing.

Technical information:

Gauge	Ext. Dia. (mm.)	Length (mm.)	Flow Rate (ml./min.)	Colour Code
24	0.7	19	15	Yellow
26	0.6	19	13	Purple

Product Code : MD-0143-0006

Product Name : IV Cannula without Injection Valve and without Wings

Specifications

The flash back chamber allows quick visualization of venous return.

Needle cover to prevent accidental damage to needle & catheter.

Color coded body/port cap as per ISO Standard.

6% luer taper as per international standard.

Japanese stainless steel (AISI 304) needle with diameter and length adhering to all ISO standards.

Triple point Needle for painless insertion.

Thin walled, Radio-opaque stripped / transparent Teflon catheter, as per USP standard Class VI.

Customized Automated Tipping Technology for lower penetration forces.

Optimum trim distance for pain free penetration. Sterile, Individually Sealed blister packed & Disposable.

Technical information:

Gauge	Ext. Dia. (mm.)	Length (mm.)	Flow Rate (ml./min.)	Colour Code
14	2.1	45	300	Orange
16	1.8	45	200	Grey
17	1.5	45	140	White
18	1.3	45	90	Green
20	1.1	33	61	Pink
22	0.9	25	36	Blue
24	0.7	19	15	Yellow
26	0.6	19	13	Purple

Product Code : MD-0144-0006

Product Name : IV Cannula with 3 Way Stop Cock

Specifications

Colour coded tap for easy identification.
Biocompatible radio opaque cannula for easy insertion and X-ray detection.
Flexible wings with suture holes for secure fixation.
Instant quick flash back confirms successful venepuncture.
Siliconised needle bevel for smooth insertion.
Luer lock stoppers to prevent contamination.
360° rotation of the tap without limitation.
Sturdy and rigid design.
Flexible angled and grooved wings allows easy fixation and prevent displacement of cannula over the patient's body.
Female luers with 6% taper for compatibility with all standard devices.
Sealed blister packing.
Sterile, Single use, Disposable, Non pyrogenic.

Technical information:

Gauge	Ext. Dia. (mm.)	Length (mm.)	Flow Rate (ml./min.)	Colour Code
16	1.8	45	200	Grey
18	1.3	45	90	Green
20	1.1	33	61	Pink
22	0.9	25	36	Blue
24	0.7	19	20	Yellow

Product Code : MD-0145-0006

Product Name : Three Way Stopcock

Specifications

Fully transparent polycarbonate body for visualization of flow.
6% luer taper as per International Standard.
Arrow indication marks for indicating direction of flow.
Rotating dead space for accurate drug administration.
Continuous flow channels.
Tight covers for all ends.
Pressure tested hydrostatically for up to 60 PSI.
Rotation allowed for 360 degree.
Red & blue pegs for arterial and venous line identification, available on request. Sterile / Disposable / Individually Packed.

Product Code : MD-0214-0006

Product Name : Three way stopcock with Extension tube

Specifications

Super smooth kink resistance tubing ensures uniform flow rate.
Extension line with three way stop cock at one end & male luer lock connector at other end.
Crystal clear transparent channel.
Minimum priming volume required for accurate drug administration.
Arrow indication on the handle to indicate the direction of flow.
Connection meets 6% taper requirement to ensure leakage free fitment.
Sterile / Disposable / Individually Packed.
Tube Length (In CM)- 5, 7, 10, 25, 50, 80, 100, 150, 200, 500
Available with DEHP Free Material also.

Product Code : MD-0134-0006

Product Name : Vented IV Infusion Set

Specifications

Vented IV Infusion Set.

Used for infusion of fluids and medicines into human circulating system.

For gravity feed only.

Strong, sharp spike for easy penetration.

A transparent drip chamber helps easy monitoring of flow rate and priming.

15-micron fluid filter inside drip chamber for filtration of foreign particles in the fluid.

Kink-resistant PVC Tube for uniform flow rate.

Smooth roller- clamp for easy adjustment of flow rate.

Self-sealing latex bulb.

Drop rate- 20 drops/ml.

Tube Length 1.5 mtr.

Tube dia : I Ø 2.8 mm, O Ø 4.0 mm.

ETO Sterilized, Single Use, Disposable, Non-Pyrogenic.

The following options are available:

With flow regulator & needle-free Y injection port.

With Y injection port.

With & without needle.

Luer lock / Rotating Luer Lock / Luer Slip.

Product Code : MD-0131-0006

Product Name : Non Vented IV Infusion Set

Specifications

Non Vented IV Infusion Set.

Used for infusion of fluids and medicines into human circulating system.

For gravity feed only.

Strong, sharp spike for easy penetration.

A transparent drip chamber helps easy monitoring of flow rate and priming.

15-micron fluid filter inside drip chamber for filtration of foreign particles in the fluid.

Kink-resistant PVC Tube for uniform flow rate.

Smooth roller- clamp for easy adjustment of flow rate.

Self-sealing latex bulb.

Drop rate- 20 drops/ml.

Tube Length 1.5 mtr.

Tube dia : I Ø 2.8 mm, O Ø 4.0 mm.

ETO Sterilized, Single Use, Disposable, Non-Pyrogenic.

The following options are available:

With flow regulator & needle-free Y injection port.

With Y injection port.

With & without needle.

Luer lock / Rotating Luer Lock / Luer Slip.

Product Code : MD-0135-0006

Product Name : Blood Transfusion Set

Specifications

Material Tubing : PVC.

Big Chamber with big filter.

The long regulator controls the drop setup easily.

Bulb latex for blood pumping on starting stage set up.

150 cm long tubing.

For transfusion of blood or blood components.

Super smooth kink resistance tubing ensures a uniform flow rate.

Clear, Transparent & Flexible Drip Chamber with sharp and easy piercing Spike.

With 200-micron blood filter.

Smooth Roller Clamp Facilitates easy, safe control and adjustment of fluid rates.

Single-use, Individually Packed, Sterile, Disposable.

Features:

Needle	18G
Material	PE, PVC, PP, ABS, Natural rubber, Medical stainless steel SUS304
Length	150cm
Package	PE package
Sterile	EO gas sterile non-toxic, non-pyrogenic
Type	20drops/mL

OPTIONS AVAILABLE:-

Size : Adult, Child.

Double Chamber or Single Chamber.

With or Without Airvent.

With or Without Needle.

With or Without "Y" Connection.

With or Without Luer Lock.

Available with DEHP Free Material.

Tube Length : 150cms, 180cms, 200cms.

Product Code : MD-0129-0006

Product Name : Burette Set

Specifications

Transparent, Flexible & soft calibrated cylindrical measured volume chamber with marking for precise fluid administration

Soft and kink resistant tube with bulb latex for easy flushing.

Shut off floater to prevent air embolism and it helps to indicate fluid level.

Efficient roller controller for better flow control.

Specially beveled strong & sharp spike for smooth & better penetration

Automatic floating shut-off valve to prevent air embolism and indicate fluid level.

Tube Length : 150cm.

Tube Material : Medical Grade PVC.

Capacity : 100 & 150ml.

Product Code : MD-0127-0006

Product Name : IV Set with Bulb Latex

Specifications

Inner Diameter : 2.7 mm

Tube Length : 150 / 125cm.

The drip chamber and drip tube maintain a distance of 40mm

between the end of the drip tube and the outlet of the chamber.

The wall of the drip chamber is not closer than 5mm to the end of the drip tube.

Flow rate of $50 \pm$ drops/min. delivered 1 ± 0.1 ml (1 ± 0.1 g)

The flow regulator allows smoothly adjusting the flow of the infusion solution between Zero and the maximum.

Hypodermic needle of 21G and length 38mm provided superior performance having sharp and smooth vein puncture.

Suitable for Long and short-term medical or surgical infusion therapy with a choice of vented or non-vented and with or without "Y" sharp connector sets or use with PVC, Glass, or Semi-rigid containers.

Product Code : MD-0136-0006

Product Name : Blood Donor Set

Specifications

Super smooth kink resistance tubing ensures uniform flow rate.

Smooth Roller Clamp Facilitates easy, safe control and adjustment of fluid rates.

Needle size : G16. extra sharp needle for smooth and eff vein puncture. Sterile / Disposable / Individually Packed.

Product Code : MD-0139-0006

Product Name : Measured Volume Burette Set

Specifications

Super smooth kink resistance tubing ensures uniform flow rate.

Flexible, Transparent & soft cylindrical measured volume chamber with sharp and easy piercing Spike.

Smooth Roller Clamp Facilitates easy, safe control and adjustment of fluid rates.

Specially designed floating auto shut off valve acts as floating indicator and automatically shut off the drain path when the chamber gets empty to prevent air trapping in the fluid line.

Separate plug for extra medication and continuous change over. -Sterile / Disposable / Individually Packed.

OPTIONS AVAILABLE:-

With or Without Airvent.

With or Without Needle.

With or Without "Y" Connection.

With or Without Luer Lock.

Latex or Latex Free.

Available with DEHP Free Material.

Tube Length : 150cms, 180cms, 200cms.

Size : 150ml., 110ml.

الوكيل الحصري - شركة عزيز للأعمال المتقدمة المحدودة - امدرمان 00249 187644790 وأتساب 00249 126714948 WhatsApp

Product Code : MD-0130-0006

Product Name : Infusion Set with Precision Flow Controller

Specifications

Tube Material : Medical Grade PVC

Transparent Colour.

With high-quality flow controller which helps IV drop set easily.

With Extra medicine Y-connection facilities.

Rotatable Luer lock.

Ribbon pouch packing.

Product Code : MD-0132-0006

Product Name : Vented Infusion Set DEHP Free

Specifications

0.2 Micron

Material : PVC.

Sterile, Single Use, Disposable.

Tube Material : Non-DEHP PVC.

Length : 150cm.

Latex-free, phthalate free.

Additional clamp 't' injection site

Product Code : MD-0133-0006

Product Name : Gravity Infusion Set

Specifications

Tube Material : PVC

Tube Length : 150cm.

Transparent Colour.

Needle : 21 G.

Luer Slip Connector.

With Big Chamber & Regulator for an easy drop set up.

Product Code : MD-0138-0006

Product Name : Scalp Vein Set

Specifications

Long-term infusion butterfly set.

The scalp vein set provides rapid venous access with greater patient comfort during infusion.

Siliconized needles with short bevels facilitate atraumatic cannulation.

A thin-walled needle provides better flow rate per gauge since more circumference is available within the same cannula.

Butterfly-shaped wings facilitate easy handling and attachment to the skin.

It is provided with a flexible female luer fitting at the proximal end.

Butterflies are color coded for instant identification of needle size.

Butterfly is connected to soft non toxic, non-irritant, medical-grade tube, which does not kink or coil set.

Available sizes - 18G, 19G, 20G, 21G, 22G, 23G, 24G, 25G.

Also, available with DEHP Free Material. Sterile / Disposable / Individually Packed.

Product Code : MD-0140-0006

Product Name : Hypodermic Disposable Syringes

Specifications

Using a disposable syringe with a sufficiently transparent barrel allows friction-free volume measurement.

A gasket for smooth movement of the plunger is made from Thermoplastic Elastomer (TPE).

Produced in high precision moulds to ensure superior quality.

The needles are manufactured with imported cannulas that have sharp tips and a good bond between the hub and the tip.

The ultra-thin wall of needles allows them to deliver drugs quickly and efficiently.

Individually packaged, sterile, single-use & disposable.

The following sizes are available (in ML) : 1,2,3,5,10,20,50

Available with or without needles.

الوكيل الحصري - شركة عزيز للأعمال المتقدمة المحدودة - امدرمان 00249 187644790 وأتساب 00249 126714948 WhatsApp

Product Code : MD-0002-0066

Product Name : Hypodermic Needle

Specifications

Made from imported stainless steel.

Extra thin wall.

The tip of the needles is grounded using high-precision CNC machines.

Siliconized to minimize drag during penetration and withdrawal

Produced on automated machines.

Blister Packed.

Sizes available : G16, 18, 19, 20, 21, 22, 23, 24, 25 & 26 (MOQ applicable).

Product Code : MD-0214-0006

Product Name : Insulin Syringe

Specifications

Ideal sharpness for less pain and more comfort

Advanced Uni-Body design.

Low dead space design ensures dosage accuracy and minimum wastage of drugs.

Clear transparent barrel and bold marking facilitates proper drug delivery.

Needles have ultra thin wall permitting rapid and efficient delivery.

Sterile / Disposable / Individually Packed.

Product Code : MD-0155-0006

Product Name : Foley Balloon Catheter

Specifications

Used for short/long term urine drainage.

Made from natural latex rubber.

Silicon elastomer-coated smooth surface for atraumatic catheterization.

High strength polymer layer in the middle layer of the catheter ensures wider inner diameter and hence a high flow rate.

Minimizes encrustation and subsequent catheter blockage and failure.

Smooth eye, ultra-thin highly elastic balloon and hard non-return valve for trouble-free inflation and deflation.

Coned distal end provided with burr-free eyes for atraumatic intubation.

The hard valve ensures easy inflation and deflation of balloon.
Sterile / Disposable / Individually Packed.

Available Three way and two-way in sizes
6, 8, 10, 12, 14, 16, 18, 20, 22 & 24.

Product Code : MD-0156-0006

**Product Name : Silicon Foley
Balloon Catheter**

Specifications

100 % Medical grade silicone for Superior Biocompatibility.

Used for long term urine drainage-Transparent medical grade silicone tube allows easy visual inspection and fluid observation.

Non-toxic, bio-compatible and extra smooth for maximum patient comfort.

Symmetrical balloon, rounded sealed tip and hard non-return.

X-ray opaque line allows for confirmation of intubated tube using X-ray.

Soft and uniformly inflated balloon makes the tube sit well against the bladder.

Smooth round shaft can minimize trauma during insertion and withdrawal.
Sterile / Disposable / Individually Packed.

Available three way and two way in different sizes.

Product Code : MD-0153-0006

Product Name : Nelaton Catheter

Specifications

Nelaton catheters are used for short term bladder catheterization.

Super smooth kink resistance tubing ensures uniform flowrate.

Atraumatic, soft rounded, closed tip with two lateral eyes for efficient drainage.

Frozen surface tubing for super smooth intubation.

Proximal end is fitted with universal funnel shaped connector for extension.

Color coded connectors for easy identification of size as per standards.

X-Ray opaque line provided through out the length of catheter.

Available in Male & Female Version.

Length : 40cm

Sizes : FG 8,10,12,14,18,20,21 & 24

Sterile / Disposable / Individually Packed.

Also, available with DEHP Free Material.

Product Code : MD-0158-0006

Product Name : Female Catheter

Specifications

For Short term bladder catheterization through urethra in female.

Super smooth kink resistance tubing ensures uniform flowrate.

Atraumatic, soft rounded, closed tip with two lateral eyes for efficient drainage.

frozen surface tubing for super smooth intubation.

Proximal end is fitted with universal funnel shaped connector for extension.

Color coded connectors for easy identification of size as per standards.

X-Ray opaque line provided through out the length of catheter.

Length : 20cm.

Sterile / Disposable / Individually Packed.

Available sizes : (FG)- 6, 8, 10, 12, 14, 16, 18, 20, 22, 24

Product Code : MD-0160-0006

Product Name : Urethral Catheter

Specifications

Used for short-term bladder catheterization through urethra.

Super smooth kink resistance tubing ensures uniform flowrate.

Atraumatic, soft rounded, closed tip with two lateral eyes for efficient drainage.

Frozen surface tubing for super smooth intubation.

Proximal end is fitted with universal funnel shaped connector for extension.

Color coded plain connector for easy identification of size.

X-Ray opaque line provided through out the length of catheter.

Length : 40cm.

Sterile / Disposable / Individually Packed

Available sizes : (FG)- 6, 8, 10, 12, 14, 16, 18, 20, 22, 24

Product Code : MD-0149-0006

Product Name : Urine Collecting Bag

Specifications

Urine Drainage system for short as well as long term Use.

Super smooth kink resistance tube provided with universal tapered connector.

Specially designed hook or hanger facilities for carrying, handling and holding the tube in upright position.

Efficient non return valve prevents the back flow.

Drainage Outlet System.

Bag graduated in ml to indicate the quantity of urine collected.

Transparent sheeting allows visual inspection.

FOLLOWING OPTIONS ARE AVAILABLE :-

With various type of specially molded hangers.

With or Without "T" Type, Screw Type or Push-Pull type Bottom Outlet

With or Without Pinch Clamp.

Tube Length : 90cm, 100cm, 120cm, 150cm.

Size : 500ml., 1000ml., 1500ml., 2000ml.

With or Without Sampling Port Sterile or Non-Sterile

Product Code : MD-0150-0096

Product Name : Leg Urine Collecting Bag

Specifications

Made from high-quality material.

With graduation.

Capacity : 1000ml.

With adjustable thigh belts.

White Colour.

Product Code : MD-2151-0066

Product Name : Urometer Urine Bag

Specifications

Measuring urine volume accurately with a urine collection bag graduated in ml.

Sample collection ports maintain a closed system, reducing the risk of urinary tract infections.

Reservoir Capacity 250 ml, 500 ml.

100 cm is the length of the inlet tube.

Urine collection bag capacity : 2000 ml.

Tubing made of soft, frosted, and kink-resistant PVC.

With T-type Bottom outlet.

For easy handling, it comes with a specially molded hanger.

Also available with needle free sampling port.

Product Code : MD-0280-0083

Product Name : Urine Bag with Top outlet

Specifications

With top outlet and non-return valve.

2000ml capacity, graduated.

Provision for hanging.

Product Code : MD-0151-0066

Product Name : Paediatric Urine Collecting Bag

Specifications

Material : PVC

Capacity : 100 ml

Adhesive Bag with safety features.

Use of hypo-allergic adhesive for fixation minimizes risk of allergy and injury to infants.

Suitable for both male and female infants.

Sterile, individually packed, single-use, disposable.

Product Code : MD-0189-0006

Product Name : Chest Drainage Catheter

Specifications

Specially designed for rapid non operative pleural and chest drainage.

Super smooth kink resistance tubing ensures uniform flowrate.

Catheter without Trocar: Atraumatic, soft rounded. Open Distal end with six lateral eyes for non-traumatic insertion.

Catheter With Trocar : Atraumatic, soft rounded, Open Distal end with two lateral eyes for non-traumatic insertion.

Cross side eyes to prevent tissue aspiration.

Large smooth drainage eyes for efficient drainage.

Proximal end is fitted with tapered connector for easy connection to drainage bottle.

X-ray opaque line provided throughout the length of catheter.

Marking on catheter is provided at from the dist end to help ascertain.

Matching size loose connector which facilitates easy connection to drainage system.

Size FG : 08, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40.
Also available with DEHP free material.

Product Code : MD-0187-0006

Product Name : Closed Wound Suction Unit

Specifications

Suitable to offer surgeons and doctors an effective device for closed wound drainage under negative pressure post operatively with the option to use one catheter or two catheters simultaneously.

Super smooth kink resistance tubing enables a uniform flow rate.

Radon drains catheters are provided with radio opaque line and satin smooth eyes.

Connecting tube is kink resistant and is provided with additional strength to withstand the suction.

Easy to use by one person depress the chamber to activate the suction of bellow unit.

Available in different sizes with matching size curved needle to meet moderate to heavy drainage needs.

X-ray opaque line provided throughout the length of Tube.

Connecting tube with clamp & "Y" connector, curved needle with matching catheter & spare perforated catheter.

Available with DEHP Free Material.

Sterile / Disposable / Individually Packed.

Size FG : 8, 10, 12, 14, 16, 18

Product Code : MD-0188-0006

**Product Name : Mini Close Wound
Suction Unit**

Specifications

Baby Vac Set has been specially designed for Wound Drainage under negative pressure for minor surgery and plastic surgery.

Super smooth kink resistance tubing ensures uniform flowrate.

Easy to use Catheter to connect bellow container.

Catheters are available in two sizes with matching size curved needle

Frozen surface Catheter and smooth round eyes facilitate efficient drainage.

X-ray opaque line provided throughout the length of Tube.

Curved Needle with matching catheter.

Available with DEHP Free Material.

Sterile/ Disposable/ Individually Packed.

Size FG : 06, 08

Product Code : MD-0055-0023

Product Name : Disposable Surgical Skin Blade

Specifications

Material : Plastic Handle with Stainless Steel Blade.

Color : White / Pink/Blue

The Stainless Steel Teflon Coated SBlade with Platinum Edge.

To use as a pre-surgery tool to remove hairs before surgery or any orthopedic procedure.

Used before cesarean delivery by gynecologists, medical tests, & E.C.G. tests, etc.

These Razors intend to reduce hardship in women personal & hygiene care.

Congestion Free Razor with unique Comb for Wet & Dry use with no irritation.

Product Code : MD-0192-0006

Product Name : Abdominal Drain Kit

Specifications

Specially designed for post operative abdominal drainage.

Super smooth kink resistance tubing ensures uniform flowrate.

Soft abdominal drainage catheter with collection bag of 2000 ml. capacity.

Catheter is Atraumatic, soft rounded, Open Distal end with six lateral eyes for non-traumatic insertion.

X-ray opaque line provided throughout the length of catheter.

Specially designed handle holds tube up right and facilitates carrying.

Transparent sheeting allows visual inspection.

Available with DEHP Free Material.

Sterile / Disposable / Individually Packed.

Size FG : 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36

Product Code : MD-0190-0006

Product Name : Chest Drainage Bottle

Specifications

Chest Drainage Bottle is a single use disposable unit which is designed to forward the collected Drainage into a collection chamber by the liquid static suction effects.

Super smooth kink resistance tubing ensures uniform flowrate.

Makes it easy to observe and measure the collected drainage content during surgery.

Facilitates safe Retrograde Technique.

Product is suitable for pleural drainage in conjunction with chest drainage catheter in Cardiac and Thoracic procedures.

Easy to read graduation helps to determine the drain volume precisely.

Product Is provided with hanging at a higher position as compares to the common collection chamber allowing the collection of drainage without giving rise to any inconvenience.

Suction port is provided to connect with suction unit.

Easy to read graduation helps to determine the drain volume precisely.

Available with DEHP Free Material. Sterile / Disposable / Individually Packed.

Available size (in ML)

Single chamber : 500, 1200, 1600, 2000ml.

Double chamber : 2000/2500ml.

Product Code : MD-0190-0007

Product Name : Chest Drainage System

Specifications

It is used to remove air from the intrathoracic space (pneumothorax), fluid from the intrathoracic space (pleural effusion, blood) or pus (empyema).

An accurate drain volume can be determined with the help of graduation markings on the bottle.

The initial level markings are clearly marked for easy and correct use.

Suction port for connecting bottle to suction.

Smooth flow is assured with kink-resistant tubing and universal connectors.

To make hanging easier, hangers are available.

Available in 1000ml (single chamber) and 2000ml (double chamber) capacities.

Product Code : MD-0626-0006

Product Name : Guedel Airway

Specifications

Suitable for maintaining an unobstructed oropharyngeal airway during general anaesthesia and in unconscious patients.
Bite block to prevent biting of tongue and airway occlusion.
Rounded atraumatic edges.

Smooth airway path for easy cleaning.

Color coded Bite Blocks for easy identification of sizes. Sterile / Disposable / Individually Packed.

Product Code : MD-0280-0066

Product Name : Suction Catheter

Specifications

Material : Medical Grade Virgin Quality Non – Toxic, Non Irritant PVC.

Tubes are with extra opaque line highly flexible and have a suitable degree of softness and the surface is finely embossed to enable smooth insertion.

The distal end opening and side eyes are smoothly contoured and free of sharp edges.

Available with and without an adaptor.

Sizes : FG 6, 8, 10, 12, 14, 16 & 18

Length : 53cm.

Colour Coded for easy size identification.
Shapes and materials appropriate for the purpose of endotracheal intubation for adult, neonatal and pediatric.

Product Code : MD-0213-0001

Product Name : Yankauer Suction Set

Specifications

A Yankauer suction set is used for oral suctioning during medical procedures. Typically, it is a plastic tip with a large opening surrounded by an adjustable head that allows strong attraction without damaging surrounding tissue. A suction tool is used to suction oropharyngeal secretions or to remove fluid, blood, pus and/or gas from wounds or cavities.

These features include :

- Suitable for intra-surgical removal of secretion and body fluids.
- An outer surface with ribs for better grasping.
- Tube is soft, flexible, and kink-resistant
- The tube length is 250 cm.
- Siliconized sleeve on the handle for smooth operation.
- Thumb control Yankauer handle available in standard or crown tip.

ALSO AVAILABLE :

- Available Sterile or Non-Sterile.
- Packed in ribbon pouch.
- Available in bulk packing also.

Product Code : MD-0165-0006

Product Name : Suction Catheter with Thumb Control

Specifications

Super smooth kink resistance tubing ensures uniform flow rate.

For removal of secretion from trachea and bronchial region.

Atraumatic, soft rounded, Open Distal end with one lateral eyes for non-traumatic insertion.

Frozen surface tubing for super smooth intubation.

Proximal end is fitted with universal funnel shaped connector for extension.

Color coded plain connector for easy identification of size.

Available with DEHP free Material. Sterile / Disposable / Individually Packed.

Suction Catheter with Thumb Control valve provided with stopper.

Length : 53cm.

Sizes : FG 6, 8, 10, 12, 14, 16, 18

Color - coded thumb controls for easy size identification.

ETO Sterile and individually packed, biological tested, and ready for single use.

Shapes and materials are appropriate for adults, neonatal and paediatric.

Product Code : MD-0168-0006

Product Name : Endotracheal Tube

Specifications

Used to maintain a patent airway and mechanically ventilate patients.

High volume, low pressure cuff, maintains seal throughout ventilator cycle.

X-ray detective line available.

Thermosensitive PVC allows the tube to soften at body temperature to conform to airway anatomy.

Clear PVC tube with visible markings for easy observation.

Murphy Eye smoothly formed to allows ventilation in the event of obstruction of the end of the tube during intubation.

A full range of standard sized to meet most of your requirements.

Universal 15 mm Connector at proximal end.

Available with DEHP free Material. Sterile / Disposable / Individually Packed

Available sizes (In MM) :- Cuffed : 4.0, 4.5, 5.0, 5.5, 6.0, 6.5, 7.0, 7.5, 8.0, 8.5, 9.0, 9.5, 10.00

Plain : 2.0, 2.5, 3.0, 3.5, 4.0, 4.5, 5.0, 5.5, 6.0, 6.5, 7.0, 7.5, 8.0, 8.5, 9.0, 9.5, 10.00

Product Code : MD-0170-0006

Product Name : Spinal Needle

Specifications

L.P. Spinal Needle.

Spinal needle provided exceptional control when penetrating the dura.

Suitable for spinal anaesthesia. -Aggressive anesthetic distribution upon injection.

High flow rate enables faster cerebro spinal (CSF) flashback.

Clear polycarbonate hub offer easy visualization of CSF or blood.

Available with Customized Needle Length.
Sterile / Disposable / Individually Packed.

Sizes (G) : 18, 19, 20, 21, 22, 23, 24, 25, 26, 27

Product Code : MD-0202-0006

Product Name : Infant Feeding Tube

Specifications

For neonatal and paediatric nutritional feeding.

Super smooth kink resistance tubing ensures uniform flowrate.

Atraumatic, soft rounded, closed tip with two lateral eyes for efficient aspiration & administration.

Proximal end is fitted with female luer mount for easy connection to feeding funnel or syringe.

Color coded connectors for easy identification of size as per standards.

Tube is marked at 20cm away from the distal tip.

X-Ray opaque line provided through out the length of Tube.

Available with graduation mark after every cm.

Tube Length : 52cm.

Sterile / Disposable / Individual Packed.

Sizes : FG 5, 6 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 (MOQ will be applicable).

Also, available with DEHP Free Material.

Product Code : MD-0285-0066

Product Name : Ryles Tube

Specifications

Duodenal Ryles Tube.

Made from Medical grade PVC.

Large lateral eyes permit effective drainage.

Used for nasogastric introduction for aspiration of intestinal fluid or for the administration of enteral nutrition.

The size of the eyes is compatible with the lumen, preventing blockage.

Kink-resistant.

Transparent material facilitates observation of aspirate.

A frosted surface eliminates the need for lubricant.

X-ray line and tip (Ryles) ensure position control.

Color-coded funnels with female connectors and closure fit standard adaptors.

Length 105cm.

Sizes available : 6, 8, 10, 12, 14, 16, 18 & 20FG.

Tip X-ray detectable during passage to the duodenum.

ETO Sterile, Single use and disposable.

Product Code : MD-0200-0006

Product Name : Stomach Tube

Specifications

Super smooth kink resistance tubing ensures uniform flowrate.

Atraumatic, soft rounded, closed tip with four lateral eyes for efficient aspiration & administration.

Tube is marked at 45, 55, 65 and 75 cm from the tip for accurate placement.

Proximal end is fitted with universal funnel shaped connector for extension.

Color coded connectors for easy identification of size as per standards.

X-Ray opaque line provided through out the length of Tube.

Available with DEHP Free Material.

Available with universal luer Connector.

Open Distal end or closed distal end.

Tube Length : 105cm. Sterile / Disposable / Individual Packed.

Size FG : 6, 8, 10, 12, 14, 16, 18, 20, 22, 24

Product Code : MD-0286-0066

Product Name : Colostomy Bag

Specifications

Used for closed colostomy procedures

Material : Non-toxic Medical grade PVC.

Coated with hypoallergenic adhesive to prevent skin maceration

Customizable hole diameter.

Sterile, single-use, disposable.

Hole size : 30/35mm. Customized hole sizes are also available.

Available with/without adhesive flange.

Product Code : MD-0211-0006

Product Name : Infant Mucus Extractor

Specifications

Specially designed for aspiration of secretion from Oropharynx in newly born babies to ensure free aspiration.

Clear transparent container permits immediate visual examination of the aspirate.

Also suitable for obtaining mucus specimen for micro biological examination.

Spare closure cap is provided to seal the container for safe transportation of specimen to the laboratory or aseptic disposal of container.

Low friction surface catheter is provided with open end silk smooth round tip for trauma free insertion.

Capacity 20 to 25ml.

Sterile / Disposable / Individually Packed

Catheter Size:

Standard- 10 FG, Optional- 12 FG, 14 FG

Catheter Length Standard- 38cm Optional- 50cm

Product Code : AEP-0032-0004

Product Name : Nebulizer Mask

Specifications

Designed to be used with any standard Nebulizer kit.

Super smooth kink resistance tubing ensures a uniform flow rate.

Smooth and feathered edge of face mask for patient comfort and reducing irritation points.

Adjustable elastic strip and integrated nose clip for proper positioning of the mask.

The Nebulizer Kit just plugs into the standard fitting located at the bottom of the Mask.

Masks are designed to deliver more medication directly to the patient due to the direct flow design.

The proximal end of the tube is connected with funnel shape connector for easy connection with the oxygen source.

Star lumen main tube to avoid accidental blockage.

Tube Length : 210cm.

Size : Adult, Paediatric & Neonatal.

Available with DEHP free material.

Sterile/ Disposable/ Individually Packed.

Product Code : AEP-0001-0006

Product Name : Oxygen Mask

Specifications

Super smooth kink resistance tubing ensures uniform flowrate.

Single-Use & Disposable.

Made of Medical Grade PVC.

Use for emergency respiration

Product Size :

Adult & Child.

Product Code : AEP-0027-0004

Product Name : Oxygen Nasal Cannula

Specifications

Single-Use & Disposable

Made of Medical Grade PVC

Use for emergency respiration

Size : Adult/Child/infant.

Available in 2, 5 & 10 meters length.

Product Code : MD-0368-0006

Product Name : Umbilical Cord Clamp

Specifications

Suitable for clamping the umbilical cord of new born baby immediately after the birth.
Provided with double purpose security lock click to indicate the correct locking and protect against accidental reopening.
Finger grip ensures safe and convenient handling, particularly when gloves are wet.
Provided with grooves all along the length to prevent the slipping of the umbilical cord and to retain it in the same position.
Supplied in Blue and White colors, other colors are available upon demand.
Sterile / Disposable / Individually Packed.

Product Code : MD-0207-0006

Product Name : Corrugated Drainage Sheet

Specifications

Extra soft super smooth PVC corrugated sheet for wound drainage.
X-ray opaque line provided throughout the length of sheet.
Multi channel drainage system of efficient drainage during operation.
Sterile / Disposable / Individually Packed.

21. Salt Sachet - 2 Pcs.
22. Nylon Pouch /bag Or Plastic Box to contain the above items - 1.

Product Code : MSK-0067-0004

Product Name : Bird Type Manual Vacuum Extractor Set

Specifications

Bird Type Manual Vacuum Extractor Set.

Manually operated.

Vacuum extractor system to assist vaginal deliveries in a delivery room.

The hand-operated suction pump creates the required vacuum.

Vacuum range, adjustable: from 0 to 100 kPa / - 760 mmHg.

Gauge dial, minimal graduation: 5 kPa / 40 mmHg.

Accuracy vacuum gauge: 5% approx.

All parts of the vacuum extractor can be disassembled, relevant parts can be autoclaved at 121 deg. C.

Requires no other than routine maintenance, manageable at the level of the delivery rooms.

The system is supplied as a complete set consisting of :

Supplied with 3 S.S. Cups, (40, 50, 60mm).

With PVC tube.

Traction Handle.

Suction Pump.

Glass jar fitted with vacuum gauge and control valve in a basket. Packed in a plastic case.

Product Code : MSK-0068-0004

Product Code : MSK-0063-0003

Product Name : Manual Vacuum Aspirator Kit

Specifications

Manual Vacuum Aspirator Kit (MVA) Kit is containing of :
Autoclavable Double Valve MVA (Manual Vacuum Aspirator) Syringe with a capacity of 60ml.

All accessories including silicone oil.

Karman Cannula sizes 4, 5, 6, 7, 8, 9, 10 & 12, one each.

Detailed information of Double Valve MVA Syringe :

Components of Manual Vacuum Aspirator Double Pinch Valve Syringe, 60ml

Plunger

A component that inserts into the cylinder and when pulled creates the vacuum. Material : Polypropylene.

Cylinder

Main holding vessel of the aspirator. Material : Polypropylene

Valve Body

Case to enclose the valve mechanism. Material : Polypropylene

Collar Stop

Clip on top of the cylinder, which prevents the plunger from being removed from the cylinder. Material : Polypropylene

O-ring

A rubber ring(Black) is inserted onto the end of the plunger making the plunger slide into The cylinder and creating a vacuum.

Material : Buna-Nitrile rubber(Synthetic Rubber)

الوكيل الحصري - شركة عزيز للأعمال المتقدمة المحدودة - امدرمان 00249 187644790 واتساب 00249 126714948 WhatsApp

Buttons

Knobs when pressed close off the liner that creates a vacuum when the plunger is pulled.

Material : Polypropylene

Liner Clamp

A mechanism that closes off the liner, which creates a vacuum in the cylinder when the plunger is pulled.

Material : Polypropylene

Liner

The soft tubular part clamps off to create the vacuum.

Material : Poly-dimethylsiloxane (Silicone Rubber)

Valve Cap

The component at the end of the valve body. Helps to hold the cannulae or adapter in place.

Material : Polypropylene

Polypropylene Barrel Capacity 60 ML.

Suction capacity : Provides above 24 inches of hg (mercury)/609.6 mm of hg(mercury) Vacuum.

Maintain this vacuum for more than Sixty minutes.

Compatible with fixed adapter Karman cannulae sizes 4-12 mm.

The valve liner is removable by opening a hinged valve body. Double locking valve allowing the creation of vacuum prior to the procedure. The valve liner provides a clear fluid path.

The aspirator features a secure stopping mechanism for the plunger when pulled.

The collar stop is able to be displaced or removed for removal of plunger. A cylinder is marked in 10cc increments to measure evacuated uterine contents.

With an ergonomic handle.

Aspirators is able to be boiled and steam sterilized (autoclaved) at 250°F or 121°C.

Can be sterilized with STERRAD 100s and can be processed by standard cold methods.

Shelf life: 5 years from the month of manufacture.

Suitable to be reused a minimum of 25 - 50 times under normal use and maintenance.

ALSO AVAILABLE SAME SET WITH SINGLE-VALVE MVA SYRINGE
